Ostfriesen Church Records and Translated Prefaces

Church records are a key source of genealogical information for our Ostfriesen ancestors. Churches recorded the births, marriages and deaths in their communities for generations, even if the person was not a member of the Church's denomination. Information that was recorded varied prior to the implementation of standards in the early 1800s. You see baptism dates rather than birth dates, burial dates instead of death dates, and the parents of couples being married may not have been recorded.

Many volunteers have compiled family books from church records for the Upstalsboom-Gesellschaft, the Ostfriesland genealogical society in Aurich, Germany. These books follow the standards of the Upstalsboom-Gesellschaft and are called an Ortssippenbuch or an OSB. Some researchers will independently compile a family book from a community's church records and publish them privately. These books are called an Ortsfamenbuch or an OFB.

Both OSBs and OFBs require extensive efforts to complete and the books are often in process for years. OSBs and OFBs were traditionally printed once and were difficult to obtain after they sold out, however some are now reprinted after an adequate number of orders have been received. The OGSA attempts to maintain copies of each book in its research collection located in the Minnesota Genealogical Society library and the collection is available at our conferences that are held every two years. Information about future conferences is provided in the Events section of our website at OGSA.us. Copies of the books are available through the OGSA and they may also be located in the LDS collection in Salt Lake City and selected libraries with large genealogical collections across the US.

In addition to family information, some of these books include a rich history of the area and church in their preface section. OGSA volunteers have translated several of these prefaces into English. Some were very short while others were more comprehensive. If you would like more historical information, you may want to obtain copies of the longer prefaces from near-by communities since these may include information applicable to the region and the times, rather than only the specific community.

The OGSA stocks most of the available books for members that would like to obtain copies. Please see our OGSA Order Form for a listing of the available community books and English translation prefaces and the number of pages for each item. We will notify you promptly if you order a book that is not in stock. You could also e-mail us at Memberships@ogsa.us to check the book availability of the OSBs.

Access to OSB/OFB information on-line or on a CD is very limited though several villages in the Harlingerland area are included in an online OFB. These records are on-line at <http://online-ofb.de/stedesdorf/index.php?lang=en>.

Please also see the Resources on CD section of our order form for additional information on these resources.

Ostfriesen Church Records and Translated Prefaces

It is important to note that not every village had a church and not every church has an Ortssippenbuch (OSB) or Ortsfamilienbuch (OFB). The table beginning on the following page shows the year that birth, marriage, and death records begin for churches in the villages of Ostfriesland. In some cases, the starting date for each type of record was not easily determined and gaps may occur in some of the records. Many of the original records were microfilmed by the LDS and may be requested for viewing at a Family History Center location. The OSB/OFB column shows if a family book exists for each church and a Yes in the English Preface column indicates a translated preface is available.

The list of communities, family books and translated prefaces follows.

Ostfriesen Church Record Availability

Town	Church Denomination	Geburt/Taufe (Birth)	Trauung (Marriage)	Beerdigung/Tod (Death)	OSB/OFB	English Preface
Amdorf	Lutheran	1718	1649	1649	OSB	Yes
